

Northern Middle School Basketball Proposal

Basketball Season Proposal

March 8, 2010

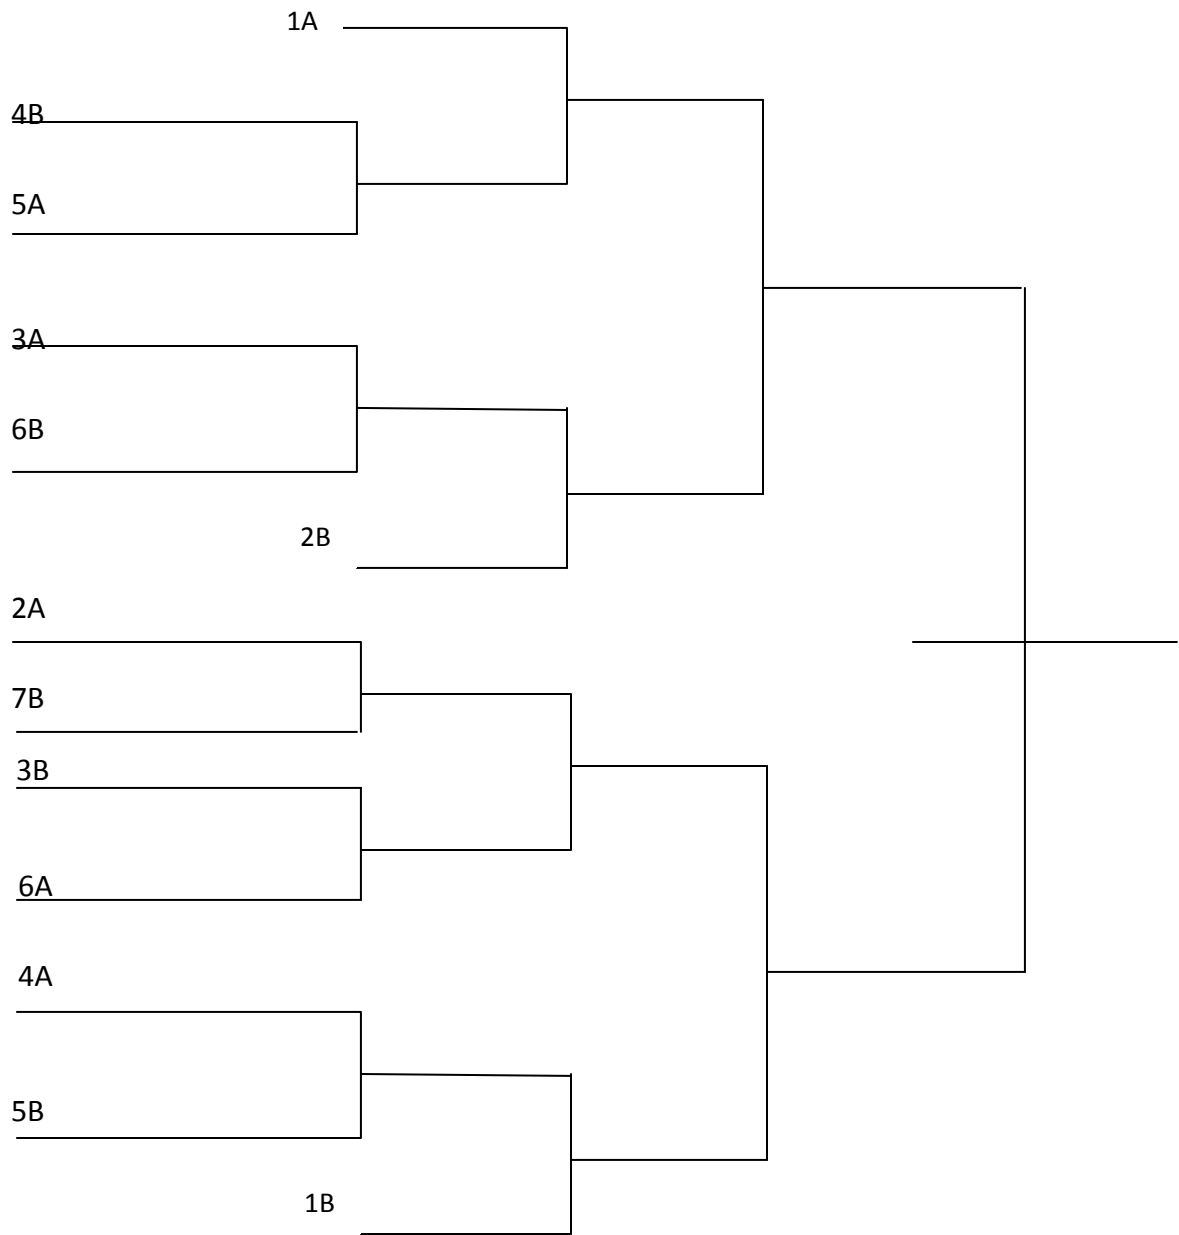

Proposal

We propose that we split our 13 team league into two separate divisions for basketball and volleyball. Division A would have 10 conference games that count towards their standings. Division B would have 12 conference games that count towards their standings. Each team would play the teams in their division in a home and away contest. Teams would be required to schedule teams in their division first. They could schedule non-conference games as desired.

Division A	Division B
Boarding Dorm / East Glacier	Browning A
Chester/Joplin/Inverness	Browning B
De La Salle	Choteau
Heart Butte	Conrad
Sunburst	Cut Bank
Valier	Fairfield
	Shelby

Tournament Week

- The 1st place finisher from Division A and the 1st and 2nd place finisher from Division B would receive a bye.
- The higher seeded team would be the host team for any games.
- The tournament host would alternate each year between Division A and Division B winner.
- The tournament bracket would look like the attached document.

The higher seeded team would be the host of all games until the Final Four. The Final Four would alternate each year between the 1st place finisher in Division A and the 1st place finisher in Division B.
